I MADE BAGUS MAHATMA BUDHI

Full-Stack Software Engineer | AI Engineer
Bali, Indonesia | madebudhi15@gmail.com | +62 811-397-8683
madebudhi.tech | linkedin.com/in/madebudhi | github.com/Made-Budhi

PROFESSIONAL SUMMARY

Software engineer with **2+ years** shipping production web systems (2024–present): **2** freelance client launches, a **6-month** internship at Singapore fintech ADA Group, and **1.5+ years** as technical lead of a live platform serving **11 schools** and **150+ children**. Full-stack across **6** programming languages and **25+** frameworks and tools; fine-tuned an **8B-parameter** Llama 3.1 model (4-bit QLoRA, Unsloth) into an automated code-review system.

WORK EXPERIENCE

Software Developer — Freelance | Bali, Indonesia | Feb 2024 – Present
- Delivered client web projects end to end across a **2-year** freelance practice — scoping, system analysis, build, deployment, and handoff, working directly with non-technical business owners.
- Launched the e-commerce site for Sergio Christoph, a Bali lab-grown diamond retailer (sergiochristoph.com) — live in production and serving storefront customers.

Software Engineering Intern (6 months) — ADA Group | Singapore | Aug 2025 – Jan 2026
- Took a responsive web app from prototype to production-ready with Flutter for Web, shipping features across **12** sprint releases in a cross-functional Scrum team.
- Implemented **low-latency** WebRTC streaming, owning signaling logic and peer-to-peer connections in the browser.
- Designed and expanded a Python (Flask) backend RESTful endpoints powering digital debt-collection and payment workflows with secure client-server communication.
- Performed end-to-end testing, defect analysis, and bug resolution across backend and frontend; supported code reviews and deployments.

Technical Lead (Volunteer) — Bali School Kids, Rotary Club of Bali Denpasar | Bali, Indonesia | 2025 – Present
- Lead developer and sole technical owner of balischoolkids.org — a sponsorship platform live **1.5+ years**, connecting **2** Australian Rotary clubs with **11 schools** and **150+** registered children across Bali.
- Own architecture, development, deployment, and maintenance end to end, coordinating directly with non-technical international stakeholders.

PROJECTS

Automated GitHub PR Reviewer — Capstone Project | 2026
- Fine-tuned Llama 3.1-8B-Instruct (**8B parameters**, 4-bit QLoRA via Unsloth) on a code-review dataset curated from Open Source Vulnerability Database (OSV.dev).
- Built a custom GitHub App (Python, Flask, GitHub REST API) that intercepts every pull request and posts model-generated reviews automatically.
- Analytics and monitoring dashboard (Streamlit) tracking review volume, model precision, and system usage.

RindiX — First Place, Attrax × UID Hackathon | 2026 | rindix.vercel.app
- First place out of **10** teams: designed and built an AI-powered web app for sustainable cultural preservation (React, Google Gemini API, Web Audio API) in **under 6 hours**, pitched to judges in **3 minutes**. Now expanding with Indonesia's Ministry of Culture.

SKILLS

Programming Languages (6): Python, TypeScript, JavaScript, PHP, Go, Java

Frameworks & Libraries (12): Laravel, React, Next.js, NuxtJS, Flask, Flutter, GoFiber, Express.js, Tailwind CSS, shadcn/ui, Socket.IO, WebRTC

AI / Machine Learning: LLM fine-tuning (QLoRA, Unsloth), PyTorch, scikit-learn, Pandas, NumPy, Google Gemini API

Tools & Platforms (10): Git, GitHub, Docker, MySQL, Supabase, Postman, Jira, Confluence, Figma, Streamlit

Practices: System analysis, Agile/Scrum, REST API design, end-to-end testing, containerization with Docker

EDUCATION

Software Engineering — Politeknik Negeri Bali | Denpasar, Indonesia | Sep 2022 – Sep 2026 | Graduated
- Earned the Best Project award **2×** during project-based learning.

Artificial Intelligence and Software (Exchange Semester) — Coventry University | Coventry, UK | Sep – Dec 2024
- Fully-funded **4-month** IISMA national scholarship exchange (Ministry of Education of Indonesia).

AWARDS & CERTIFICATIONS

- First Place, Attra × UID Hackathon (project: RindiX) — 2026
- Indonesian International Student Mobility Awards (IISMA) — fully-funded national scholarship — 2024
- Junior Web Programming Certification — LSP TIK Indonesia (BNSP) — 2024

LANGUAGES

Indonesian: Native **English:** Fluent (TOEIC **940/990**, 2026)
